About Me

Motivated B.Tech student with a strong foundation in computer science concepts and a growing interest in Artificial Intelligence and Web Development. Skilled in problem-solving, programming, and building user-friendly applications. Eager to apply technical knowledge and continuously learn new technologies to contribute effectively in a dynamic environment. I know basic of languages but i have strong foundation in java.

Education

10th Board- New Heaven School(Vadodara)

2020

Gujarat Board

Percentage:86.16

12th Board- SSV2(Vadodara)

2022

PCMB student,Gujarat Board

Percentage:72

Parul University

2023-2027

currently in 4rd year

CGPA:8.53

Skills

Languages: Java, Python, C, SQL, JavaScript, MongoDB,C++

AI/ML: Basic ML,Unsupervised Learning, Supervised Learning

Platforms comfortable with: GitHub, VS Code, IntelliJ IDEA, AWS Cloud

Concepts: Data Structures , OOPs, AI / ML Concepts, Android Development

Interpersonal: Public Speaking, Leadership, Critical Thinking, Creative Thinking, making content

Experience

Infosys springboard Internship | Intern

June 2026 – Present

- Currently participating in internship activities and gaining practical industry experience.
- Working on AI Recruitment and Talent Management Copilot related tasks and workflows.
- Collaborating with team members and strengthening technical and problem-solving skills.
- Applying concepts related to software development, AI tools, and project execution.

Projects

Science fact website | Full-Stack Web Application — HTML5, CSS3, JavaScript, LocalStorage | [GitHub](#)

2024

- Developed a comprehensive science education website featuring secure user authentication, interactive learning modules for chemistry/physics/biology/astronomy, dynamic quiz system with real-time scoring, and responsive dashboard with progress tracking using vanilla JavaScript and LocalStorage for data persistence.

NEBULA AI Weather | Python, Flask, Scikit-learn, SQLite(working)

2025

- Developed an AI-powered weather platform with real-time forecasting, AQI monitoring, and an AI chatbot.
- Trained a Random Forest model on 96K+ weather records and integrated weather APIs, authentication, and personalized recommendations.

Achievements

Foundation Course in Green Skills & AI (Skills4Future) | EDUNET

- * Successfully completed a certified course focused on Green Skills and Artificial Intelligence. ([Certificate](#))

Deloitte

- * Data Analytics Job Simulation, Data Analysis, Forensic Technology ([Certificate](#))

TATA

- * GenAI Powered Data Analytics, Exploratory data analysis and risk profiling, Predicting delinquency with AI, Business report and data storytelling for collections strategy, Implementing an AI-driven collections strategy ([Certificate](#))

J.P. Morgan - Quantitative Research Job Simulation

- * Investigate and analyze price data, price a commodity storage contract, credit risk analysis, bucket FICO scores ([Certificate](#))

Certifications

AWS Academy Graduate - AWS Academy Cloud Foundations | cloud foundations

july 2025-sept 2025

- * value added course- cloud computing and AI with AWS ([badge](#))

Google for Education – Gemini AI | Gemini Certified University Student Google

Nov-2025

- * Generative AI fundamentals,Prompting techniques, Practical use of Google's Gemini AI tools, Responsible and safe AI practices ([badge](#))
